

CORAL

LORELIE

(Hollingsworth 1996) Medium size round bomb that opens to a unique shade of dusky orange pink; even on fading the color is a lovely shade of pale apricot orange; the rather light fragrance is sweet and spicy; erect bush to 26 inches in height; reliable bloomer.

HILLARY

(Anderson 1999) (Intersectional) This cross hybrid has a complicated and variable coloration of shimmering cream, maroon and red throughout the petals, which surround a center of ivory carpels tipped green; it stands out easily among other peonies; originator's stock.

Available in pots at the nursery.

CORAL SUNSET

(Wissing 1965) Intensely coral semi-double with a rosy infusion that add a sunset glow to the color; large dramatic blooms in some seasons are so full of petals, the flower looks double; reaches 32 inches tall and, like all of the corals, needs its first year to grow good roots, so don't expect much on top the ground.

Available in pots at the nursery.

CORAL CHARM

(Wissing 1964) Large brilliant coral semi-double; the tight coral pink buds open to a rich coral peach then fade softer shades of coral all the way to tangerine yellow; a mature plant can sometimes show many shades of coral at once making the plant even more spectacular; tall, but strong stems and great vigor.

Available in pots at the nursery.
